NAIC
National Association of Insurance Commissioners

The NAIC is the authoritative source for insurance industry information. Our expert solutions support the efforts of regulators, insurers and researchers by providing detailed and comprehensive insurance information. The NAIC offers a wide range of publications in the following categories:

Accounting & Reporting
Information about statutory accounting principles and the procedures necessary for filing financial annual statements and conducting risk-based capital calculations.

Consumer Information
Important answers to common questions about auto, home, health and life insurance — as well as buyer's guides on annuities, long-term care insurance and Medicare supplement plans.

Financial Regulation
Useful handbooks, compliance guides and reports on financial analysis, company licensing, state audit requirements and receiverships.

Legal
Comprehensive collection of NAIC model laws, regulations and guidelines; state laws on insurance topics; and other regulatory guidance on antifraud and consumer privacy.

Market Regulation
Regulatory and industry guidance on market-related issues, including antifraud, product filing requirements, producer licensing and market analysis.

NAIC Activities
NAIC member directories, in-depth reporting of state regulatory activities and official historical records of NAIC national meetings and other activities.

Special Studies
Studies, reports, handbooks and regulatory research conducted by NAIC members on a variety of insurance-related topics.

Statistical Reports
Valuable and in-demand insurance industry-wide statistical data for various lines of business, including auto, home, health and life insurance.

Supplementary Products
Guidance manuals, handbooks, surveys and research on a wide variety of issues.

Capital Markets & Investment Analysis
Information regarding portfolio values and procedures for complying with NAIC reporting requirements.

White Papers
Relevant studies, guidance and NAIC policy positions on a variety of insurance topics.

2015 Accident and Health Policy Experience Report

INTRODUCTION

The *Accident and Health Policy Experience Report* was originally created in 2010 using 2009 data, with the intention of meeting the growing demand for information on health insurance. The *Accident and Health Policy Experience Report* includes aggregated data from the Accident and Health Policy Experience Exhibit, market share data based on this exhibit, and more.

The health insurance market is expansive, with a variety of different types of health insurers. Employer-provided health insurance that is self-insured may be regulated by the federal government. Not all health insurers are required to file with the state insurance departments. For example, while many health insurance writers in California file with the California Department of Insurance, some companies are required to file with the California Department of Managed Health Care. It is the peculiarities of the health insurance market that warrant caution be taken when analyzing the numbers within this report. Because the NAIC receives most filings from companies required to file with the state insurance departments, the data are not a complete depiction of the health market as a whole.

Some life insurance companies and fraternal insurance companies provide accident and health coverage, as well as expected life coverages. Property/casualty companies may also provide accident and health coverage in addition to other lines of business. Some companies write primarily accident and health insurance, even if they are licensed as life, fraternal, or property/casualty entities. Therefore, the Accident and Health Policy Experience Exhibit appears in all major NAIC financial annual statement blanks (property/casualty, health, life, and fraternal). The exhibit as it currently exists was added to the NAIC financial annual statement blanks that were used for reporting 2006 year-end data. The exhibit includes a breakout for individual and group business.

Report Format

This report contains the following sections:

<u>Aggregated Annual Statement Financial Data</u>
This section reflects data reported in the Accident and Health Policy Experience Exhibit. The data is aggregated for all financial annual statement types and is then broken out by each financial annual statement type (property/casualty, health, life, and fraternal). The data is not available at the state level at this time.

<u>Individual Business</u>
This section contains breakouts of Individual Business market share data. The market share is based on premiums earned as reported in the Accident and Health Policy Experience Exhibit. Insurance groups are made up of insurance companies that are related by common ownership. The market share reports show data by group for those insurers that are a member of a group. This allows the report to contain a more complete view of the market share information. The market share data is broken out by statement type and by line of business.

© 2016 National Association of Insurance Commissioners

The Individual Business breakouts are:

- Market Share for the Top 125 Insurers – This includes total market share, across all business types, for the top 125 groups.
- Top 25 Groups by Company – Individual company data is shown for each of the top 25 groups.
- Market Share Data by Statement Type – The data is broken out by business type. It includes breakouts of separate market share data in each statement type, including property/casualty, health, life, and fraternal.
- Market Share Data by Line of Business – This consists of data broken out by line of business. It includes a total market share of the top 125 groups. Breakouts are provided for the aggregate of all lines of business, as well as by line of business (e.g., comprehensive major medical).

Group Business

This section contains breakouts of Group Business market share data.

The Group Business breakouts are:

- Market Share for the Top 125 Insurers
- Top 25 Groups by Company
- Market Share Data by Statement Type
- Market Share Data by Line of Business

Other Business

This section contains breakouts of Other Business market share data

The Other Business breakouts are:

- Market Share for the Top 125 Insurers
- Top 25 Groups by Company
- Market Share Data by Statement Type
- Market Share Data by Line of Business

Grand Total (Individual, Group, and Other) Business

The final section contains breakouts of Grand Total (Individual, Group, and Other) Business market share data. The data in this section is not broken out by the separate Lines of Business included within the Grand Total.

The Grand Total breakouts are:

- Market Share for the Top 125 Insurers
- Top 25 Groups by Company
- Market Share Data by Statement Type

© 2016 National Association of Insurance Commissioners

Company Index

An index listing the insurer groups and the individual companies included in the insurance groups reported in this publication has been added at the end of the report. Insurers continuously merge, change names, and buy and sell companies; however, the index gives a "snapshot" view of group structures as filed with the NAIC by the date this report was generated.

Comments on this report are encouraged so that the report will continue to evolve to meet the needs of its users. These data are maintained in NAIC databases and are available for additional application development. These data are also available for purchase by the public in both hardcopy and electronic formats.

Aggregation and Calculation of Data

This report utilizes the term "aggregated" to describe data developed by summing the financial annual statements of individual companies. In order to represent more completely the data as reported on the financial annual statements, all data are aggregated directly from the numbers reported to the NAIC.

Definitions

The health insurance industry is broad, and not all terminology carries the same definition. To avoid ambiguity and to help ensure this report is not misunderstood, some definitions have been provided. For more definitions within the Accident and Health Policy Experience Exhibit, please use the NAIC *Annual and Quarterly Statement Instructions* (for property/casualty, health, life, or fraternal).

Group Business – Health insurance where the policy is issued to employers, associations, trusts, or other groups covering employees, members and/or their dependents, to whom a certificate of coverage may be provided.

Individual Business – Health insurance where the policy is issued to an individual and covers the individual and/or their dependents. This includes conversions from group policies.

Comprehensive/Major Medical – Policies that provide fully insured indemnity, health maintenance organization (HMO), preferred provider organization (PPO), or fee for service coverage for hospital, medical, and surgical expenses. This category excludes short-term medical insurance; the Federal Employees Health Benefit Program and non-comprehensive coverage (such as basic hospital only, medical only, hospital confinement indemnity, surgical, outpatient indemnity, specified disease, intensive care, and organ and tissue transplant coverage); and any other coverage described in the other categories of this exhibit.

© 2016 National Association of Insurance Commissioners

Qualifications

The accuracy of the reports included in this publication depends on the accuracy of the information contained in each Accident and Health Policy Experience Exhibit filed by insurers. Even though the data elements used to prepare the reports are extracted from exhibits filed with the NAIC, the NAIC cannot verify or guarantee the accuracy of every data element.

While the NAIC exercises a great deal of care in capturing data from the financial annual statements and producing various reports, as with any statistical project of a significant magnitude, errors can occur. Consequently, the NAIC makes no representations or warranties with respect to the accuracy of the data and statistics in this report.

Please send any questions regarding this report to *researchrequest@naic.org*. Links to this report and other NAIC reports can be found on the NAIC website at: *NAIC Publications*.

2015 Accident and Health Policy Experience Report

Technical Notes

In prior years, there were data anomalies within the Individual Business section of the Accident and Health Policy Experience Exhibit regarding the Number of Policies or Certificates to the Number of Covered Lives. Starting with 2010 data, a reasonability validation was added into the software data checks of NAIC company filings, with a ratio of one individual policy or certificate per 10 covered lives, as this ratio should not be exceeded in individual business. These should reduce the number of errors.

A similar anomaly within the Accident and Health Policy Experience Exhibit affected the Premiums Earned column in regard to either the Number of Policies or Certificates, or the Number of Covered Lives. Essentially, some companies reported having no premium earned, but reported having policies/certificates and/or covered lives; or they reported no covered lives and/or no policies/certificates, but reported having premium earned. A validation was added in 2010 to the software for this anomaly. While it is possible for a company to have premium with no lives/policies if they are in run-off, including a validation should help to reduce filing errors.

While these validations should help to reduce anomalies, errors may still occur.

Aggregated Annual Statement Data

All lines on all pages are aggregated data.

Currently, the Accident and Health Policy Experience Exhibit is not available by state.

Individual Business

All data are aggregated from the Individual Business section of the Accident and Health Policy Experience Exhibit.

Group Business

All data are aggregated from the Group Business section of the Accident and Health Policy Experience Exhibit.

Other Business

All data are aggregated from the Other Business section of the Accident and Health Policy Experience Exhibit.

Grand Total (Individual, Group, and Other) Business

All data are aggregated.

Note: On the Aggregated Market Share, the Grand Total reflects the difference of the Grand Total of the Accident and Health Policy Experience Exhibit (Line D.2) minus the Total Non-U.S. Policy Forms (Line D.1).

Market Share

Companies reporting negative premiums are included in the calculation of total premium. Due to the addition of negative premiums to the total premium, the cumulative market share is capped at 100%.

The National Association of Insurance Commissioners (NAIC) is the U.S. standard-setting and regulatory support organization created and governed by the chief insurance regulators from the 50 states, the District of Columbia and five U.S. territories. Through the NAIC, state insurance regulators establish standards and best practices, conduct peer review, and coordinate their regulatory oversight. NAIC staff supports these efforts and represents the collective views of state regulators domestically and internationally. NAIC members, together with the central resources of the NAIC, form the national system of state-based insurance regulation in the U.S.

For more information, visit **www.naic.org**.
