# Remember

---

The filing deadline is  
**April 30, 2023**

Before we begin, please be sure to remember that the current year MCAS filing deadline is April 30<sup>th</sup>.

## Remember

### MCAS Threshold:

- There is no premium threshold for LTC.
- Any positive premium in any state for stand-alone LTC, hybrid Life-LTC, or hybrid Annuity-LTC is reported for that state.

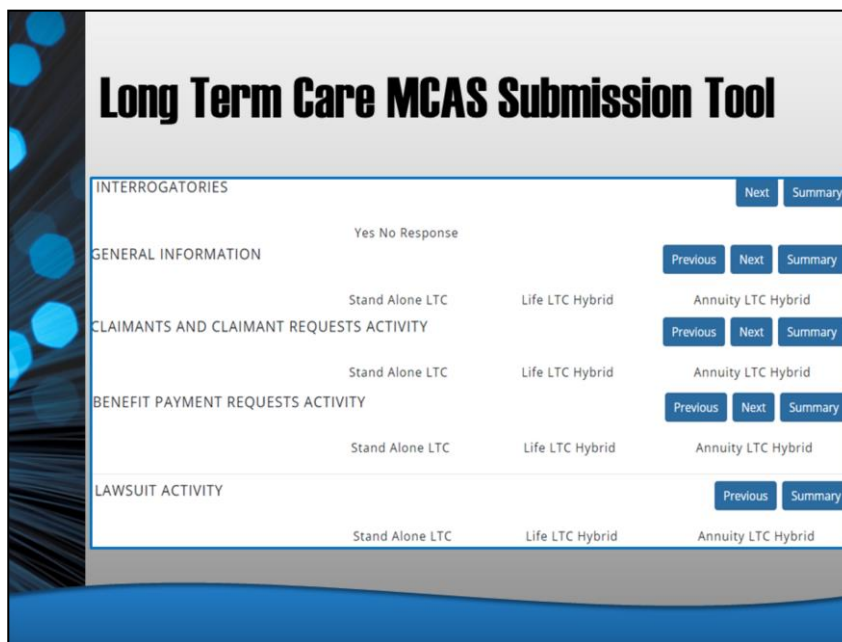

There is no premium threshold for this line of business. Companies with any in-force Long Term Care policies are required to report in all participating jurisdictions (for those jurisdictions in which they have in-force policies).

The first section of questions that you will see in the data entry screen is the interrogatories. The interrogatories provide one location for all comments and questions that require a text response.

You will notice on your data entry screen within the MCAS submission tool that there is one page for Interrogatory questions and four separate pages of data questions for the policy types.

There are a total of 7 sections or schedules for the Long-Term Care MCAS, with the Interrogatories being the first, however, within the MCAS submission tool the data questions are separated into five total pages for a better user experience within the tool itself.

The five pages of data entry are Interrogatories, General Information, Claimants and Claimant Requests Activity, Benefit Payment Requests Activity and Lawsuit Activity.

We will discuss the details of each section throughout this handout, but the way each page of information begins for the Long-Term Care MCAS appear here.

The interrogatories also provide space where you may enter any state specific comments for the policy types. Any areas of your data that may raise questions or generated a warning when your data was validated should be explained fully in these comment areas. Please review the MCAS validations in more detail along with the importance of using the comments sections.

# Long-Term Care MCAS Data Elements

The LTC MCAS requests market conduct data on three types of policies that offer long-term care coverage:

## Market Conduct Data

### Long-Term Care

- Stand-Alone LTC
  - Life-Hybrid LTC
  - Annuity-Hybrid LTC
- 
- Report experience on individual LTC hybrid policies and contracts.
  - Do not report experience on group policies and contracts.

Stand-Alone LTC policies, Life LTC Hybrid policies and Annuity LTC Hybrid policies. Please note, that MCAS is only collecting data on individual policies, not LTC offered through group coverage.

# Market Conduct Data

## Stand-Alone Long-Term Care in MCAS:

- NAIC Long-Term Care Insurance Model Act (#640), Sec. 4a
  - ... any insurance policy ...designed to provide coverage ...for each covered person ... for one or more necessary or medically necessary diagnostic, preventive, therapeutic, rehabilitative, maintenance or personal care services ....

## LTC Hybrid Insurance in MCAS:

- Products providing LTC insurance [which is] 'built into the life policy or annuity contract, or ... attached to such policy or contract by a rider.....
- NAIC Long-Term Care Insurance Model Act (#640), Sec. 4A
  - [Hybrid-LTC] **does not include** life insurance policies that accelerate the death benefit specifically for ... terminal illness, medical conditions requiring extraordinary medical intervention or permanent institutional confinement, and that provide the option of a lump-sum payment for those benefits and **where neither the benefits nor the eligibility for the benefits is conditioned upon the receipt of long-term care.**

The definitions of Stand-Alone and Hybrid-LTC insurance can be found in the MCAS Data Call and Definitions. The Data Call and Definitions reference Section 4.A. of the NAIC Long-Term Care Insurance Model Act (#640). Stand-Alone LTC, per the Model Act, is “any insurance policy...designed to provide coverage ...for each covered person ... for one or more necessary or medically necessary diagnostic, preventive, therapeutic, rehabilitative, maintenance or personal care services ....” LTC-Hybrid products, per the MCAS Hybrid-LTC Data Call and Definitions are products in which LTC coverage is built into the life policy or annuity contract, or attached to them by a rider.

The definitions for hybrid LTC also references Sec 4A of the LTC Model Act. Per the Model, Hybrid-LTC riders and policies would only qualify for reporting if the trigger for coverage is solely conditioned on the receipt of eligible long-term care. So, if a life policy provides accelerated death benefits, but those benefits can be received for other conditions in addition to LTC needs, it would not be included in MCAS.

As the data elements for hybrid products and stand-alone products are basically the same, with one exception, we will discuss them all together. However, they must be reported separately.

Before we move on to the main data elements, it's important to point out that if there is any question regarding data reporting methodology, you should follow the same methodology used to report on the Financial Annual Statement.

# In-Force & New Business

Long-Term Care General Information

	Stand-Alone LTC	Life LTC Hybrid	Annuity LTC Hybrid
19	Number of policies/contracts in-force as of the beginning of the reporting period.		
20	Number of new business policies/contracts issued during the period.		
21	Number of free look cancellations during the period.		
22	Number of lapses during the period.		
23	Number of rescissions during the period.		
24	Number of policies/contracts in-force as of the end of the period.		
25	Number of internal replacements during the period.		
26	Number of external replacements during the period.		
27	Number of policies/contracts replaced where age of insured at replacement was < 65.		
28	Number of policies/contracts replaced where age of insured at replacement was between 65 and 80.		
29	Number of policies/contracts replaced where age of insured at replacement was > 80.		
30	Number of complaints received directly from consumers.		

**January 1, 2022 – December 31, 2022**

Now we're ready to discuss the Long-Term Care MCAS questions. The first questions are about policies issued during the period:

Both the Stand-Alone and Hybrid LTC schedules ask for the:

- Total number of policies/contracts in-force at the beginning of the reporting period, and
- The total number of new business policies/contracts issued by the company during the period

As mentioned before, the reporting period only includes those policies issued between January 1 and December 31. If a policy was applied for on December 31 of the reporting period, but not finally issued until the middle of January, do not count it.

Next you are asked to report the number of free look cancellations during the period. Note that, regardless of when the policy was issued, you should include only those free looks that occurred during the reporting period

## Long-Term Care Data Call & Definitions

### Free Looks

A free look is a set number of days provided in a policy or contract that allows time for the purchaser to review the policy or contract provisions with the right to return the policy or contract for a full refund of all monies paid. Report the number of policies that were returned by the owner under the free look provision.

A free look is a set number of days provided in a policy or contract that allows time for the purchaser to review the policy or contract provisions with the right to return the policy or contract for a full refund of all monies paid. Report the number of policies that were returned by the owner under the free look provision.

## Free Looks

MCAS is not asking for the number of policies that have a Free Look provision; you are expected to provide the number of times the free look provision was exercised during the reporting period.

Policies with Free Look Provision

Policies where Free Look Provision was Exercised

MCAS is **not** asking for the number of policies that have a Free Look provision; you are expected to provide the number of times the free look provision was exercised during the reporting period.

29	Number of policies/contracts replaced where age of insured at replacement was > 80.		
30	Number of complaints received directly from consumers.		

**End of Reporting Period December 31, 2022**

Next, you are asked to report the number of policies in-force at the end of the period. The number of policies in-force, is simply the number of in-force policies and contracts on the last day of the **reporting** period (which is December 31).

# Replacements

29	Number of policies/contracts replaced where age of insured at replacement was > 80.		
30	Number of complaints received directly from consumers.		

**January 1, 2022 – December 31, 2022**

There is a series of questions addressing “replacement” activity during the reporting period. As we mentioned, the reporting period for the data year is January 1 through December 31. So, you would provide the number of replacements **issued** between January 1 and December 31. For all products (Stand-Alone LTC, Life LTC Hybrid and Annuity LTC Hybrid) you are asked to provide the:

- Number of internal replacements issued during the period, and the
- Number of external replacements issued during the period

# Long-Term Care Data Call & Definitions

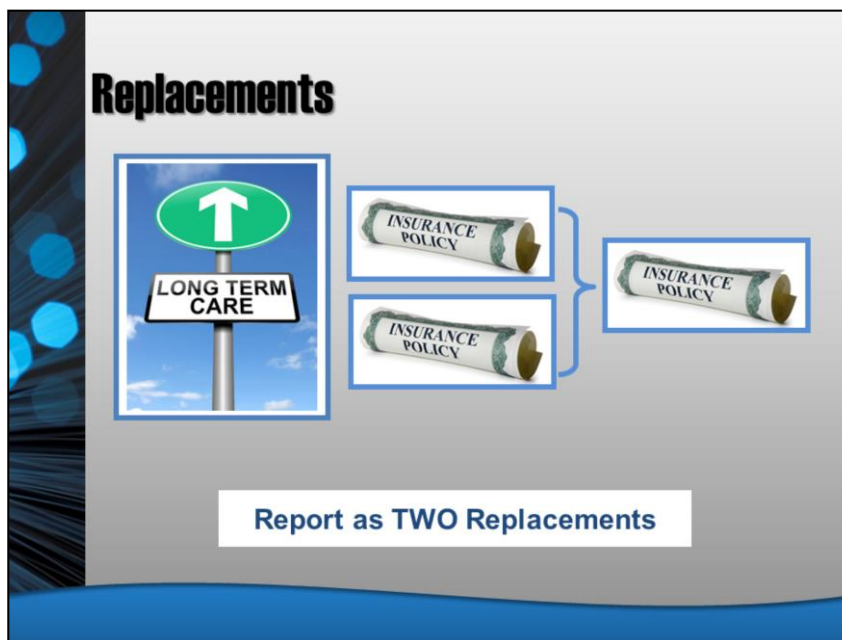

## Replacements

- Stand-Alone LTC policies: The replacement of a policy or contract with LTC benefits already in force with a new stand-alone LTC policy.
- Hybrid LTC policies: The replacement of any life policy, annuity contract or LTC policy already in force with a new policy or contract with LTC hybrid insurance coverage.

The definition of a replacement policy as stated in the Long-Term Care Data Call & Definitions for Stand-Alone LTC policies is the replacement of a policy or contract with LTC benefits already in force with a new LTC policy. (Please note that new LTC policy means a stand-alone LTC policy.)

The definition for Hybrid LTC policies is the replacement of any life policy, annuity contract (that is, any life or annuity policy whether or not it already has LTC coverage) or LTC policy already in force with a new policy or contract with LTC hybrid insurance coverage.

Remember that you should report the replacement according to what type of product the new policy is.

Note that if a person replaces two policies with one policy, this should be counted as two replacements.

# Internal Replacement

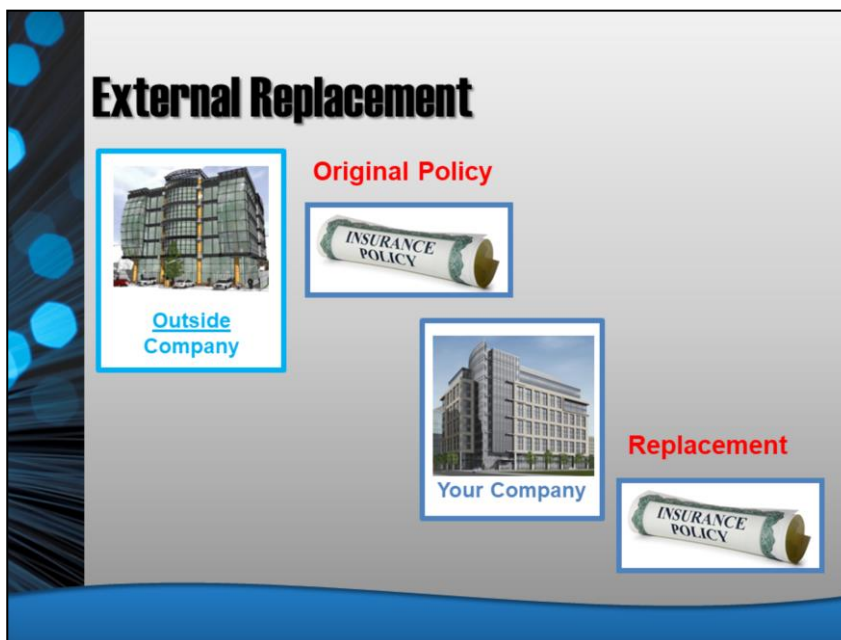

Original Policy

Replacement

An internal replacement is when the policy to be replaced was also issued by your company,

And an external replacement is when the policy to be replaced was issued by another company. The replacements reported **do not** include policies written by your company that are replaced by policies issued by another company.

# Replacements

# Long-Term Care Data Call & Definitions

## Complaint

Any written communication that expresses dissatisfaction with a specific person or entity subject to regulation under the state's insurance laws. An oral communication, which is subsequently converted to a written form, will meet the definition of a complaint for this purpose.

A complaint is defined as “Any written communication from a consumer that expresses dissatisfaction with a specific person, or entity, or product subject to regulation under the state’s insurance laws. An oral communication, which is subsequently converted to a written form, will meet the definition of a complaint for this purpose.”

## Long-Term Care Data Call & Definitions

### Complaints Include:

- Any complaint regardless of the subject of the complaint (claims, underwriting, marketing, etc.)
- Complaints received from third parties
- Complaints that are **directly** received by the company through social media applications should be included if the complaint has enough specificity to meet the definition of a complaint

### Complaints Do Not Include:

- Complaints received from the state department of insurance

Complaints should be included in the complaint count regardless of the subject of the complaint. So, whether it is regarding claims, underwriting, marketing, or another area, it should be included. Complaints received from third parties also should be included. Complaints that are **directly** received by the company through social media applications should be included if the complaint has enough specificity to meet the definition of a complaint. Please note that this does not include complaints that have been received via the department of insurance.

The next two sections in MCAS deal with the claims activity. Please note that there are different sections for reporting claimant and claimant requests vs benefit payment requests. These differences are explained in further detail for each section. It is important to remember to report the experience for those policies or contracts with LTC hybrid benefits and report experience only for the LTC benefit portion of the policy or contract. For example, if the insured on a life LTC hybrid policy dies, you would not report this as a claim on the LTC MCAS. You only report experience for the LTC benefit portion of the LTC hybrid product.

“Per claimant” basis: Counting each individual who makes one or a series of requests or demands for payment of benefits under a policy or contract.

The first few questions deal with claimant requests and claimant request determinations. Reporting for this section is to be done on a “per claimant” basis which means that we are counting **each** individual who makes one or more requests for coverage under a policy or contract. It is **NOT** the actual benefit payment request. Those are reported in the Benefits section.

## **Long-Term Care Data Call & Definitions**

### **Claimant**

An insured under an in-force policy or contract who the insurer has determined has met the benefit trigger of the policy or contract, or is in the process of making such determination, and such insured is, or may be, eligible to submit benefit payment requests.

It may help to review the definition of claimant that is used in the MCAS LTC Data Call and Definitions. A claimant is an insured under an in-force policy or contract who the insurer has determined has met the benefit trigger of the policy or contract, or is in the process of making such determination, and such insured is, or may be, eligible to submit benefit payment requests.

# Long-Term Care Data Call & Definitions

## Claimant Request

A claimant request is a request or demand for payment made by an insured, or a representative of the insured, for a loss that may be included within the terms of coverage of the LTC policy or contract.

- This does NOT include events that were reported by the insured for “information only” or an inquiry of coverage when a claim has not actually been presented (opened) for payment.

A claimant request is a request or demand for payment made by an insured, or a representative of the insured, for a loss that **may** be included within the terms of coverage of the LTC policy or contract. It does not, however, include events that were reported by the insured for “information only” or an inquiry of coverage when a claim has not actually been presented (opened) for payment.

## **Long-Term Care Data Call & Definitions**

### **Claim Request Determination**

A claim request determination is a determination as to whether an insured has met a contractual provision of a LTC policy or contract that conditions the payment of benefits on the insured's ability to perform activities of daily living, cognitive impairment, or other loss of functional capacity.

A claim request determination is a determination, by your company, as to whether an insured has met a contractual provision of a LTC policy or contract that conditions the payment of benefits on the insured's ability to perform activities of daily living, cognitive impairment, or other loss of functional capacity.

The first question asks for the number of claimants approved for benefits as of the beginning of the period. The second asks for the number of claimants with pending claimant request determinations as of the beginning of the period.

### January 1, 2022 – December 31, 2022

The next section of questions, in MCAS, deal with reasons that claimant requests could be denied. There are six reasons to choose from, and one “all other” category. We will quickly cover the reasons in the next few slides. Please note that if a denial could be reported under more than one of the categories, you should report the denial in the category that is most specific to the circumstances surrounding the denial. If a claimant’s request was denied, the denial should **NOT** be counted more than once.

## **Long-Term Care Data Call & Definitions**

### **Claimant Request Denied/Not Paid Because Claimant Did Not Pursue**

A claimant made a request or demand for payment for the purpose of receiving a claimant request determination and/or benefit payment under the LTC benefit of a policy or contract, but did not provide the necessary documentation or contact the insurer again (inactivity could be the result of death.)

Claimant Request Denied/Not Paid Because Claimant Did Not Pursue—this would be if a claimant made a request or demand for payment for the purpose of receiving a claimant request determination and/or benefit payment under the LTC benefit of a policy or contract, but did not provide the necessary documentation or contact the insurer again.

## **Long-Term Care Data Call & Definitions**

### **Claimant Request Denied/Not Paid Because of Preexisting Condition Exclusion**

A denial of coverage because benefits for the medical advice or treatment recommended by, or received from a provider of health care services are subject to a restriction as a pre-existing condition for a period of time following the effective date of the claimant's LTC coverage.

Claimant Request Denied/Not Paid Because of Preexisting Condition Exclusion—this is a denial of coverage if the benefits are subject to a restriction as a pre-existing condition.

## **Long-Term Care Data Call & Definitions**

### **Claimant Request Denied/Not Paid Because Elimination/Waiting Period Not Met**

A determination, following the initial claimant request for coverage under the LTC benefit of the policy or contract that the elimination/waiting period had not yet elapsed.

Claimant Request Denied/Not Paid Because Elimination/Waiting Period Not Met—this would be used if the elimination or waiting period had not yet elapsed.

## **Long-Term Care Data Call & Definitions**

### **Claimant Request Denied/Not Paid Because Services Provided Not Covered**

Expenses incurred for services and support which are not eligible for reimbursement under the LTC benefit of a policy or contract, such as an expense incurred for home health care when the policy or contract only provides benefits for nursing home confinements.

Claimant Request Denied/Not Paid Because Services Provided Not Covered—this would be chosen if the expenses incurred for services and support are not eligible for reimbursement under the LTC benefit of a policy or contract.

## **Long-Term Care Data Call & Definitions**

### **Claimant Request Denied/Not Paid Because Provider/Facility Not Qualified**

A long-term care provider or facility does not meet the minimum level of requirements or licensing as outlined in the policy or contract.

Claimant Request Denied/Not Paid Because Provider/Facility Not Qualified—this is for denials because the long-term care provider or facility does not meet the minimum level of requirements or licensing as outlined in the policy or contract.

## **Long-Term Care Data Call & Definitions**

### **Claimant Request Denied/Not Paid because Benefit Eligibility Criteria Not Met**

A determination, following the initial claimant request for coverage under the LTC benefit of the policy or contract, that a benefit trigger has not been met, or a required certification by a licensed health care practitioner has not been provided, or a plan of care has not been provided.

Claimant Request Denied/Not Paid because Benefit Eligibility Criteria Not Met—  
This is used if it is determined that the initial claimant request for coverage fails to meet any of the eligibility criteria or a required certification by a licensed health care practitioner has not been provided, or a plan of care has not been provided

## January 1, 2022 – December 31, 2022

The next questions refer to the length of time that it took for a claim request determination to be made. To review, a claim request determination is a determination as to whether an insured has met a contractual provision of an LTC policy or contract that conditions the payment of benefits on the insured's ability to perform activities of daily living, cognitive impairment, or other loss of functional capacity.

For purposes of the MCAS, the term applies to the initial claimant request, and captures the period of time from the notice of claim to the claimant request determination date. For claimant requests that are denied or not paid, you should report the period of time from the date of notice of claim to the date the claimant was **notified** of the determination to deny or not pay the claim. These are broken out into time frames from 0-30 days, from 31-60 days, from 61-90 days and those beyond 90 days.

Reporting  
Notes

If a claim is  
reopened:

- Report the claim as a new claim.
- The claim determination time period should be measured from the date the claim was reopened to the benefit trigger determination date.

If a claim is re-opened, report the claim as a new claim and the claim determination time period should be measured from the date the claim was re-opened to the benefit trigger determination date.

## Long-Term Care Data Call & Definitions

### Benefit Payment Request

A benefit payment request is a request for benefits after the insurer has determined the insured is entitled to benefits following the initial claimant request.

- Each request or demand for a benefit payment (after satisfaction of the waiting or elimination period, if any) is treated as a distinct benefit payment request, and continuing payments for the same service should each be treated as a distinct benefit payment.

A benefit payment request is a request for benefits **after** the insurer has determined the insured is entitled to benefits following the initial claimant request. Each request or demand for a benefit payment (after satisfaction of the waiting or elimination period, if any) is treated as a distinct benefit payment request, and continuing payments for the same service should each be treated as a distinct benefit payment. For purposes of reporting lawsuits for LTC products:

For Life LTC Hybrid and Annuity LTC Hybrid, you report lawsuit experience for all lawsuits related to the LTC-hybrid product, regardless of what aspect of the product, coverage or benefit the lawsuit is about.

You would only include lawsuits brought by an applicant for insurance, a policyholder or a beneficiary.

And you would include all lawsuits, whether or not a hearing or proceeding before the court occurred.

But you would not include arbitrations.
